

4 Surprising Facts About Merino Wool

THAT MAKE IT PERFECT
FOR WORKWEAR

1

MERINO WOOL COOLS YOU DOWN

It's not just for cold weather. Merino wool naturally regulates body temp, keeping you cool when it's hot, and warm when it's cold

2

IT'S SOFTER THAN YOU THINK

Merino fibers are super fine, about 1/3 the width of a human hair, giving it a smooth, itch-free feel against your skin.

3

IT FIGHTS FUNK, NATURALLY

Merino resists odor thanks to its natural antimicrobial properties. That means you stay fresher, longer, even in the heat of the day.

4

IT WICKS & DRIES FAST

Merino wool absorbs moisture vapor from your body and releases it into the air, helping sweat evaporate quicker and keeping you dry.

Now you know

Merino wool is redefining comfort
and performance in everyday workwear.
